The *Collegiate Knowledge Levels* serials are in the NOCS Data-For-Analysis group of the Open Latch Publications products. For this survey line, three college campuses in Northeastern Ohio have been polled. One is a large state university, one a public regional college, and one a small faith-based university.

As with all DFA journals, the information presented on the following pages has undergone absolutely minimal editing. Misspellings, typos, grammatical mistakes, irregularities in spacing, and the like have been left in the students' text in order to preserve as much of the actual survey taker's voice as possible.

In order to make following the data easier, each survey begins at the top of an even numbered page, which allows the questions of the individual survey to be formatted on a spread.

The CKL instructions each student received upon initiating the emailed surveys are duplicated below in order to provide more insight into the general pattern of response.

You will find three surveys listed below: one on American presidents, one on Darwinism, and one on Current Events (June 2009 to present). Please follow the following instructions carefully.

Click "Reply" to reply to this email. Then, in the reply email, go down to the original email and answer the questions. Place your answers after the "A:" in the line underneath the question. If your answer goes longer than one line, then continue typing. When done, make sure there is one blank line between your answer and the next question. Be sure to save the work as a draft email so you don't lose the material if you have to take a break.

For each of the three surveys, PLEASE RETYPE your answers for questions a-h.

FOR THE MAIN QUESTIONS, PLEASE DO NOT LEAVE ANY QUESTION BLANK. THE INTEGRITY OF THE SURVEY IS UPHELD ONLY IF YOU ANSWER THESE QUESTIONS WITHOUT TRYING TO LOOK UP THE ANSWERS. IF YOU DON'T KNOW, JUST MAKE A GUESS, BUT PLEASE DON'T LOOK THINGS UP.
